

FARMACLICK

Anti-itching and anti-redness cream

KEY INFORMATION

The cream is an emollient cream that contains no steroids.

Unique composition of 3 “active” natural ingredients.

Proven efficacy!*

The cream soothes and reduces itching in red and irritated skin.

Safe alternative with similar effects to hydrocortisone cream without the side effects!

Well tolerated and safe for all ages, for prolonged use and on large skin surfaces, also on eye lids.

**backed by a solid clinical trial on a large number of patients*
